

Waterloo Data Fortress Inc. & Recovery Force Inc.

Joint Press Release

Waterloo and Guelph, Ontario Canada - October 17, 2007

Waterloo Data Fortress Inc. (provider of co-location, networking and data back up services) and Recovery Force Inc. (provider of data recovery services), announce that they have concluded a Letter of Agreement to co-operatively promote, market and sell their respective services.

Miro Forest, (Waterloo Data Fortress) and Jose Gonzalez, (Recovery Force) are excited about this new relationship and look forward to providing a more complete set of data protection and recovery services to Customers.

Both companies are locally based and understand fully the global reach of many medium and smaller enterprises in the Waterloo Region.

With the ever increasing focus on the protection and recovery of business data, coupled with the increasing size and complexity of this data, Customers will be able to rely on the proven track record of both companies to protect and/or recover their critical information.

**About,**

Waterloo Data Fortress Inc.

[www.waterloodatafortress.ca](http://www.waterloodatafortress.ca)

The Waterloo Data Fortress provides secure, reliable co-location, networking and remote backup services. We operate an enterprise-grade data centre in the Waterloo region equipped with top tier equipment and system protection.

The company started operations in 2003 and has already established a strong base of satisfied Customers.

**About,**

Recovery Force Inc.

Recovery Force Inc. is a pioneer in data recovery and computer forensics, with a decade of experience in recovering critical business and personal data for clients throughout Canada and the rest of the world.
